

Anatomy and Physiology

TEMA1040 301

Course Description

The Anatomy and Physiology course familiarizes the student with the plan and structure of the human body, its function under healthy conditions, and an introduction to the body's response to illness and disease. Instruction covers all organ systems, including diagnostic treatment modalities. Medical terms related to the body and correct spelling and pronunciation are taught.

Course Student Learning Outcomes

- Locate and label major organs and structures in the body systems.
- Identify and state the function of the major anatomical components of the human body.
- Describe common disorders associated with each major anatomical component.
- Identify common pathology related to each body system.

Transfer/Certification/Licensure/Employment Information

An SLCC Certificate is earned after successfully completing all the courses within the program (the entire training program). This type of certificate provides evidence to employers that a level of competence has been achieved.

Additionally, students take the tests for industry-standard certificates when completing specific courses intended to prepare students for those certificates (e.g., CPR, First Aid, etc.).

A national certification test must be taken before completing the Clinical Medical Assisting program, typically during the externship. You may choose from certifying

through the NHA, NCCT, and AMT. Speak with your instructors regarding the differences between each and the costs associated.

Communication Plan

- Instructors are open and available to help you in the classroom for face-to-face interaction, through college email or Canvas comments and messaging, Zoom, and telephone as posted within the syllabus and the 'Home Page' in Canvas including the 'Communications Statement' (with exception of holidays and campus closures). Feel free to reach out to us!
- I will respond to email within 48 hours. The best way to contact me is via the Canvas Inbox, as I will prioritize this email over other modes of communication.
- In this course I will be posting interactive announcements which will offer specific opportunities for class questions and participation in activities.

Keys for Success (how to succeed in the course)

Communication:

Instructors are open and available to help you in the classroom for face-to-face interaction, through college email or Canvas comments and messaging, Zoom, and telephone as posted within the syllabus and the 'Home Page' in Canvas including the 'Communications Statement' (with the exception of holidays and campus closures e.g. semester breaks). Feel free to reach out to us!

Clothing/Lab Dress Code:

Scrubs may be worn in the classroom, and are required in the lab area and for externship (some externship facilities have specific requirements eg. U of U Red, Black, or Navy Blue scrubs only). A disposable lab coat may be provided for use over street clothes if scrubs are not worn for lab and clinical skills. Closed-toe shoes are also required in the laboratory/clinical setting areas when practicing skills.

Food and Drinks:

There will be no food or drinks allowed in the computer or lab area of the classroom. A 'Break Room' with a microwave and refrigerator is available for student use.

Cellular Phone Usage:

Cellular phones will be turned to silent mode or if the phone does not have a silent option then they will be turned off while in the classroom. Any phone conversation must be made outside the classroom so as not to disrupt others. Phones are not allowed at the testing stations.

Classroom Safety:

There is an emergency guideline and evacuation route posted in the classroom. As you progress through the program, you will learn OSHA standards of safety in a medical setting. There is a binder with Material Safety Data Sheets located in the classroom to use as a reference in the event of an incident involving hazardous materials. Please be aware of the location of these safety guidelines.

Student Responsibilities:

All students are accountable for the following:

1. Stay engaged and on task (read, watch videos, listen, take notes, ask questions, complete assignments, schedule, and complete skills)
2. Log into the LMS (Canvas - the College's learning management system) for course materials presentations, and examinations
3. Follow the instructor's directions AT ALL TIMES
4. Ask the instructor for assistance when needed; after FIRST having attempted to resolve the problem themselves
5. Complete 12-24 hours of coursework each week for on-time course completion (based on part-time vs full-time enrollment status).

Brief Description of Assignments/Exams

- Module 1-The Human Body
- Module 2-The Chemistry of Life
- Module 3-Cell Structure
- Module 4-Cellular Metabolism and Reproduction: Mitosis and Meiosis
- Module 5-Tissues
- Module 6-The Integumentary System
- Module 7-The Skeletal System
- Module 8-The Articular System
- Module 9-The Muscular System
- Module 10-The Nervous System: Introduction, Spinal Cord, and Spinal Nerves
- Module 11-The Nervous System: Brain, Cranial Nerves, Autonomic Nervous System, Special Senses
- Module 12-The Endocrine System
- Module 13-The Blood
- Module 14-The Cardiovascular Circulatory System
- Module 15-The Lymphatic System
- Module 16-Nutrition and the Digestive System
- Module 17-The Respiratory System
- Module 18-The Urinary System
- Module 19-The Reproductive System

How to Navigate to Canvas

Institutional Policies

As members of our academic community, we would like to invite you to review the Institutional Syllabus which covers important policies and procedures. This document contains important links for students on the code of student rights and responsibilities, academic integrity, and grading policies, Title IX and other important acknowledgements. By familiarizing yourself with this information, you can help us create a safe and respectful environment for everyone.

You can access the document by clicking on the following link:

<https://slcc.instructure.com/courses/530981/pages/institutional-syllabus>

Learning Support and Tutoring Services

We are pleased to offer a range of tutoring and learning support services to help you achieve your academic goals. Whether you need assistance with a specific subject or want to improve your study skills, you have many options for tutoring or other support.

To learn more about the services we offer and how to access them, please visit the Institutional Syllabus under the Tutoring and Learning Support tab:

<https://slcc.instructure.com/courses/530981/pages/institutional-syllabus>. We encourage you to take advantage of these resources to help you succeed in your studies. If you have any questions or would like to schedule a tutoring session, please don't hesitate to reach out to us. We are here to support you in any way we can.

Advising and Counseling Support Services

At our institution, we are committed to supporting your academic and personal growth. That's why we offer a range of advising and counseling services to help you navigate the challenges of college life. To learn more about the resources available to you and how to access them, please visit the Institutional Syllabus under the Advising and Counseling Support Services tab: <https://slcc.instructure.com/courses/530981/pages/institutional-syllabus>. Our advising team and the support centers across campus are here to support you in achieving your goals and overcoming any obstacles you may face.

Student Academic Calendar

As students you should be aware of all important dates in the semester, such as the day that courses begin and end, as well as the drop date and the last day to withdraw. To learn more about those dates, navigate to the Student Academic Calendar below:
