Keys for Success (how to succeed in the course)

Time Management

Time management is an effective tool for getting things done. Having a proper schedule can help you complete the course on time. Try to write down and schedule as much as possible. Some people will be able to simply schedule block “study times,” others will have to break it down further.

Discipline Yourself

Discipline yourself to study everyday at least two hours or until you understand your assignment. Study to know and to understand, not merely to get a particular grade.

Ask for Help

If you are not keeping up in class, do all that you can do to help yourself including asking for help. Come into the class or Zoom room to talk with your instructor(s).

Communicate with Instructors

If you cannot come to class, please notify your instructors.
