

Med Term and Anatomy II

TEMC - 1260 301

Course Description

This course is a continuation of Medical Terminology & Anatomy I. This course will continue to teach how to break down medical terms in order to interpret and understand the medical language as well as gain knowledge of medical abbreviations of additional body systems.

Prerequisite(s): TEMC 1250

Semester(s): All

Course Student Learning Outcomes

- Interpret medical terms by identifying prefix, suffix and root word including abbreviations as they relate to the Circulatory, Respiratory, Nervous, Endocrine systems, as well as for the Eye and Ear.
- Change singular terms to their plural forms as they relate to the Circulatory, Respiratory, Nervous, Endocrine systems, as well as for the Eye and Ear.
- Identify the structures of the Eye, Ear, Respiratory and Endocrine systems.

Course Prerequisites

Medical Terminology and Anatomy 1 TEMC-1250

Transfer/Certification/Licensure/Employment Information

The USHE (Utah System of Higher Education) technical college program alignment allows for students at any USHE technical college to transfer seamlessly within any other USHE technical college. USHE technical colleges proposing to offer courses associated with this program currently include Davis Tech, Mountainland Tech, and Ogden-Weber Tech.

Engagement Plan

- Instructors will respond to email within 24 to 48 hours.
- We will offer feedback on major assignments within 24 to 48 hours.
- The best way to contact us is via the Canvas Inbox, as I will prioritize this email over other modes of communication.

Keys for Success (how to succeed in the course)

Time Management

Time management is an effective tool for getting things done. Having a proper schedule can help you complete the course on time. Try to write down and schedule as much as possible. Some people will be able to simply schedule block “study times,” others will have to break it down further.

Discipline Yourself

Discipline yourself to study everyday at least two hours or until you understand your assignment. Study to know and to understand, not merely to get a particular grade.

Ask for Help

If you are not keeping up in class, do all that you can do to help yourself including asking for help. Come into the class or Zoom room to talk with your instructor(s).

Communicate with Instructors

If you cannot come to class, please notify your instructors.

Brief Description of Assignments/Exams

In the Medical Terminology and Anatomy for Coding course, students will be assessed through assignments and exams that focus on developing a solid foundation in medical language and anatomical knowledge essential for accurate medical coding.

This course structure is designed to equip students with the essential knowledge of medical terminology and anatomy needed for precise and effective medical coding in healthcare settings.

Assignments and Exams will be made up of multiple choice, fill in the blank and/or True/False.

All items must be passed with a 80% or better.
