## Academic Integrity

---

Academic honesty is essential in this class. Cheating, plagiarism, or misrepresenting your work in any way will not be tolerated. Beyond being unethical, cheating ultimately cheats you out of the skills and knowledge you need for your career. Welding and fabrication are hands-on professions where safety, accuracy, and integrity matter every day on the job. Cutting corners here means you may not have the understanding needed when it really counts in industry—where mistakes can risk jobs, projects, or even lives.

Do your own work, ask for help when needed, and commit to learning the material honestly. By holding yourself to a high standard, you are not only respecting the learning process but also preparing yourself to succeed as a professional.

## How to Navigate to Canvas

---

### Institutional Policies

---

As members of our academic community, we would like to invite you to review the Institutional Syllabus which covers important policies and procedures. This document contains important links for students on the code of student rights and responsibilities, academic integrity, and grading policies, Title IX and other important acknowledgements. By familiarizing yourself with this information, you can help us create a safe and respectful environment for everyone.

For more information, navigate to the Institutional Policies tab on the [Institutional Syllabus](#) page.
